**Tender Contract Number: ITT-05-22  
Pavement Preservation – Pulverizing & Paving – Parkhill Road East  
(Canal Street to Television Road)**

## **Construction Notice**

April 14, 2023

Dear Business, Property Owner and/or Resident:

The City has awarded the above noted project to Coco Paving Inc. The Contractor is scheduled to mobilize to this location in May 2023. The work is scheduled to be completed by late summer of 2023. The corresponding lane closures described below will be coordinated not to occur simultaneously with that of Television Road (Parkhill Road East to Maniece Avenue) which is also being completed this season.

The scope of work generally includes pulverizing existing bituminous pavement, earth excavation and grading, installation of new base and surface course hot mix asphalt, installation of new high tension cable guide rail systems and application of pavement markings on Parkhill Road East between Canal Street and Television Road.

Traffic will experience lane shifts and at times be reduced to one lane with the use of flagging operations during the project works. There is a scheduled eastbound lane closure accompanied by a detour for the purpose of pulverizing, earth excavation and grading, and paving operations. The expected duration for the eastbound lane closure is two weeks accompanied by 24-hour consecutive operations in order to expedite the work. As a result, it is expected that local traffic may experience delays within the construction limits.

**Related information can be found by visiting the Road Construction Map posted on the City's website at [peterborough.ca/en/city-hall/construction.aspx](https://peterborough.ca/en/city-hall/construction.aspx).**

**Please contact us if you have any accessibility concerns before the above date in order that they may be addressed with the contractor.**

If any issues or questions arise prior to and/or during construction, please contact the following:
