Addendum #1

Re: FD-2021-01 Pumper Fire Apparatus

Two updates to the RFT:

1. Section 15 will have an addition to supply Master Intake Valve:
 - **6" TFT MIV Ball Intake high-flo Jumbo Valve. Manual control and swivel fitting with 6" NH Threads.**
2. Adding in section 10.8 for a rear dump chute:
10.8 Newton Dump Valve
10.8.1 Reinforced tank area for one (1) Newton style 10" gated square dump valve to be supplied and installed at rear of tank with a 36" telescopic chute and operating handle on the left side.

Any questions should be directed to Fire Chief Chuck Pedersen.
